

More information on the Opt-Out Indiana campaign

The new federal health care law, known as Obamacare, requires federal agencies to subsidize and administer health plans that will pay for abortions.

The law also opens the door to direct federal funding of abortion in Community Health Centers, hundreds of which are operated by Planned Parenthood – the nation’s (and Indiana’s) largest abortion provider.

The Executive Order signed by President Obama, widely and inaccurately reported as prohibiting taxpayer abortion funding under the law, cannot overrule the abortion impact of the law.

States are allowed to opt-out of abortion coverage in the state-based insurance “exchanges” created by the law. Thousands of Hoosiers do not want to subsidize abortion coverage or pay for abortions. This is why we need you to sign this petition.

This does not correct all of the Obamacare abortion problems, but it does address what can be done at the state level in relation to mandatory health care exchanges. Opt-out legislation cannot be introduced until January of 2011. Please sign this petition so that Governor Daniels and members of the Indiana General Assembly know that thousands of Hoosiers want Indiana to opt-out of subsidizing abortions through mandated health care exchanges.
